HEALTH & VOTING

Voting is a key step in improving the health of our communities. Evidence shows that when democracy is healthier, people are healthier too!

- Voting helps you stay connected with your community, which can improve mental health and wellbeing
- When more people vote, disparities in community health lessen
- In states where more women vote, they have better health outcomes and lower mortality

CHANGES TO THE POLLS

After the 2020 census, Michigan was redistricted resulting in changes to congressional and legislative boundaries.

Your legislative districts and polling place may have changed. You may have new representatives running in changed districts.

Get a sample ballot online to be informed before you vote!

IMPORTANT DATES *

NOVEMBER 8th:
General Election

***Voter registration closes two weeks before election day (October 24th). After that, all voters must register in-person with a county clerk.**
